WOMEN WRITERS MEET.

Members Are Back From Atlanta and the Session Was Well Attended.

The Woman's National Press Association met in the parlors of the Higgin House last night. Owing to illness the president, Mrs. H. B. Sperry, was absent, and Mrs. Mary M. North presided. Nearly all the members have returned from Atlanta, where they went to celebrate W. N. P. A. days, October 24 and 25.

Those present were: Mrs. M. S. Lockwood, Mrs. Anna M. Hamilton, Mrs. Mary S. Gist,

Mrs. M. L. O'Donoghue, Mrs. Mary M. North, Mrs. E. S. Crowell, Mrs. A. R. E. Nesbit, of Philadelphia; Mrs. E. P. Hart, Mrs. Allen, of Michigan; Miss Cynthia Cleveland, Mrs. E. P. Maudin, of Philadelphia; Miss M. E. Torrence.

She Sues for Her Tooth.

The National Homeopathic Hospital was yesterday made the defendant in a damage suit for \$100, brought by Florence S. Holick, through her father, Henry T. Holick.

The money is alleged to be the price of a tooth, which she alleges was poorly treated.

THEIR NAMES GIVEN OUT

Police Advised That Certain Saloons Are Minus Licenses.

RESULT OF THEIR NEGLIGENCE

Proprietors of Bars Who Failed to File Applications Are Without Authority to Retain Clubs Involved. Indications That Square 63 Will Be Abandoned as Crematory Site.

The name of every known saloonkeeper who failed yesterday to file an application for the renewal of his license has been given to the police department, with instructions to see that no infraction of the law is permitted.

All saloon proprietors are this morning without authority to continue in the business, and a single sale at any one of the establishments will subject the offender to arrest.

The effect of the neglect to procure a license given yesterday, as under a ruling of the excise board, each saloonkeeper who failed to deposit his application and fee by 3 o'clock yesterday, the hour of closing, will be required to procure the consent of the residents adjacent to his place of business and be in all other respects subjected to the rules governing new places.

The place of business of each of such delinquents will also have to be placarded and remain closed until action can be taken upon the application that may be filed hereafter.

It was stated last evening that some of the most prominent saloons in town have failed to deposit the fee, one big establishment being located on Pennsylvania avenue.

The total number of applications filed with the board at the hour of closing yesterday was: Retail, 580; wholesale, 156. The total revenue to be derived from these applications, in the event that all shall be approved, is \$27,000.

HOW THE LIST COMPARES.

The aggregate of applications filed at the close of business on November 1 of last year was: Retail, 589; wholesale, 172, showing by comparison a decrease this year in each class.

A total of four clubs only out of fourteen in the District have applied for license for the ensuing year. The latter are: Plateau Club, Pugarwood Driving Park, German-American Pleasure Club, and the Buena Vista.

Some of the larger and more influential organizations, including the Army and Navy, are among the clubs that declined to apply. It is not understood that these are expected to discontinue the dispensing of liquors, and the inference is that some of them at least expect to contest the validity of the liquor law.

Mrs. E. E. Briggs has submitted to the Commissioners, as the basis of her appeal from the building inspector's ruling, which she declares that the regulations do not mention lattice work in the prohibition clause, but that, on the contrary, the wording is that no "solid wall" of certain dimensions shall be constructed beyond a certain height, to become an obstruction, as described.

The building inspector's interpretation of the regulation is that nothing shall be erected of more than forty-two inches in height on the building line and adjoining other property.

MRS. WARDER'S FINE RESIDENCE.

Mrs. B. H. Warder obtained a permit yesterday for the construction of a four-story dwelling at No. 1741 K-street northwest. The dimensions of the main building are 30x40-7 feet, with a rear building 34x21 feet.

The materials to be used in the front are Washington pressed brick and Amherst sandstone. The building will be heated by furnace, and is to cost \$25,000.

Other permits issued yesterday: William Brown, store and dwelling, No. 2400 Virginia avenue, \$2,200; A. E. Haslip, three dwellings, Nos. 51 to 55 Quincy street, \$5,000; J. W. Grege, four additions to 1116 First street, \$1,000.

It is very apparent that the site selected recently for the South crematory, plan which the Commissioners approved, has for some reason fallen into disfavor, and the probability is that another will be chosen.

This is a fair inference from the circumstances that after announcing their approval of the selection, and notifying the South people that the application for permit to construct would have to be signed in person by Mr. Warfield, two conferences were held between the latter gentleman and the Commissioners and the application is still unsigned.

Mr. Warfield declined to give his reasons for the delay, and the Commissioners were decidedly reticent and non-committal when approached upon the subject.

The consensus of opinion is that Secretary Herbert's objections are still on file, which the Commissioners are still on file.

PRESIDENT CROSBY'S PLEA.

President Crosby, of the Georgetown and Tenleytown Railway Company, was in consultation until a late hour last evening with the District Commissioners and Attorney Pugh respecting the charge preferred against the company in police court for alleged violation of the law against stringing overhead wires.

The specific act for which the warrant was issued was for extending the trolley from the present terminus of the road on thirty-second street to a point twenty-five feet distant, in the direction of their proposed extension toward the river front.

The president maintains that the company has the right under its charter to string so much wire as may be needed to extend the road to the private ground over which it has negotiated right-of-way.

Capt. Crosby expressed the opinion that Prosecutor Pugh is pursuing his company with more than the necessary vigor, and Mr. Pugh retorted that the law is his duty to perform of prosecuting people who string overhead wires should not be burdened with a conscience.

GIVEN TWO SENTENCES.

George Goodlow Pays Dearly for Breen's Broken Leg.

George Goodlow, the negro prisoner who was the cause of Policeman Michael Breen breaking his leg on the stone stairs in front of the First precinct station house, was severely punished in the police court yesterday.

On the charge of stealing a bucket from Clay Anderson, of Glendale, Md., for which he was arrested by Policeman Breen, he was fined \$5 or fifteen days in jail. On the additional charge of profanity, preferred by Mounted Policeman Sullivan, he was fined \$25 or three months in the chain gang.

He's Not That Miller.

Editor Times: Will you kindly announce in the columns of your valuable paper that Charles E. Miller, of Detroit, Mich., employed in the specification division of the Government Printing Office, is not the Charles E. Miller who has gained notoriety through the press in an effort to procure a license to open a saloon in the Harrison Flats. CHAS. E. MILLER.

Will Be Allowed to Vote.

Judge Lynch, of the circuit court, sitting in Rockville, has rendered a decision in the appeal of E. L. Warner, of this city, and John H. Fishback, Jr., from the refusal of the registration officers to put their names on the books as qualified voters. The court decided that they were entitled to the benefits of legal residence in Maryland.

American Legion of Honor.

The annual grand visitation of the grand council officers of the American Legion of Honor will be made to the councils in this jurisdiction at the first meeting of each council in November. Grand Commander Brann will explain the new legislation of the late session of the Supreme Council, held in August last.

WILL TEST PHILLIPS' ORDER

Transfer Question May Result in Some Interesting Developments.

Belt Line Blames the Metropolitan and President Newbold Is On His Way Here.

The abrogation of transfers between the Metropolitan Railway and the Belt Line of Louisiana avenue, Fifth street, and Eleventh street, went into effect yesterday, a fact of which some people who do not read The Times were only made aware when they were refused transfers by the Metropolitan Railroad at the points named.

A notice that such would be the case yesterday was conspicuously posted in the cars of the Belt Line Railway, in which notice the Metropolitan is credited with having withdrawn from its agreement with the Belt Line, leaving the burden of the numerous complaints to be borne by the Metropolitan Railway.

There is just now no learning what the Belt Line people propose to do about it, but the impression has gotten out that they will let Mr. Phillips' right to arbitrarily take such action in the courts.

It was learned last night that President Newbold, of the Exchange and Soldiers' Home Railway, which controls the Belt Line, will arrive in the city this afternoon, and it is understood that his coming is largely on account of this action of the Metropolitan railway. What course is to be pursued by the Belt Line is of course only speculative, but there is one of the directors who says that the position assumed by The Times is the correct one, and that there is simply no escape for the Metropolitan railway from the consequences of its acts through Mr. Phillips but to restore the status quo or to pay the penalty.

Mr. Hamilton K. Gray, who is now in charge of the Belt Line here, since the transfer of Manager Schopf to Baltimore, said last night that his official position is misunderstood. He is not the manager of the company, nor has he any right to speak for it on a matter of this kind, but his attitude toward the Metropolitan can be learned from the phraseology of the notice he has had posted in the Belt line cars.

The situation with respect to the two railroads is just now decidedly interesting, and as was anticipated, the averaging public is taking a vast deal of interest in the issue. The inconveniences to the public yesterday were without number, and they will continue to be so until the people get used to the way in which business is conducted by some of the railways of the city.

It is not at all unlikely that there may be some interesting developments in the case before the end of the week.

NO RIFLES FOR MARYLAND.

Union Republican Club Condemns the Suggestion of Gen. Sypher.

At a recent meeting of the executive committee of the Union Republican Club the committee on selecting a suitable location for receiving election returns on the night of the 5th of November reported that they had secured the parlors of Willard's hotel and arranged for a wire direct to the parlors.

The committee, after a full discussion of the published purported utterances of Gen. Sypher at the last meeting of the club, adopted the following resolution, as expressive of the sentiments of the members of the club:

"Resolved, That while we as members of the Republic and sovereign right of every lawful citizen, rich or poor, native or foreign born, white or black, to cast our free ballot in public elections, and to have that ballot duly counted, we propose in

the future, as in the past, to depend upon the lawful authorities of each State to maintain the purity of the ballot box, and have no inclination, or wish for, or sympathy with, rifle or other practices not in accordance with statute laws."

500 Five Dollar Rockers

AT \$2.90.

JUST IN! The finest lot of \$5 Rockers that ever graced the interior of a house. "What are they made of?"

Finely polished QUARTERED OAK, MAHOGANY FINISH and CURELEY BIRCH! We are going to sell this lot in Four Days at \$2.90 for each rocker, and if there are any left then the price will be as it ought to be—\$5. We are enthusiastic about

these Rockers, and no wonder; for no one ever heard of such quality, such material, such strength, such beauty at anywhere near this price. Pick out yours quickly.

The Julius Lansburgh Furniture & Carpet Co.

KNOCKED HIGH IN THE AIR

Edmund Davem Struck by a 10th Street Motor Car.

Fender Did Not Work, but the Man Had a Miraculous Escape From Death.

A nearly fatal accident occurred at the corner of Ninth street and Louisiana avenue about 4:15 o'clock yesterday afternoon. As Ninth street electric car No. 2 came bowling along, southbound, Edmund Davem, fifty-two years of age, who appeared to be under the influence of liquor, attempted to cross the tracks.

Policeman Sullivan, of the First precinct, who stood on an opposite corner, and several citizens gave a shout of warning, which was not heeded by the man. He reached the center of the southbound track when the electric car struck him with full force. Davem was thrown into the air by the force of the collision, and instead of falling into the gutter, the fender, he struck upon the track, face downward.

The car rolled him over
